

MPS Timing Light Adapter for Stick Coils

P/N 1-0808

The MPS Timing Light Adapter for Stick Coils (P/N 1-0808) allows the use of an inductive timing light on a bike with stick coils. This will let you verify the correct crank angle setting in stand alone ECU applications.

- 1) Push Threaded piece into coil where spark plug would normally go
- 2) Push 90 degree plug boot onto the spark plug top
- 3) Screw spark plug top onto the spark plug in the engine
- 4) Push the straight spark plug boot onto the spark plug
- 5) Clip your timing light inductive pickup to the plug wire

If you have any more questions we have a Frequently Asked Questions page at our web site as well as the telephone tech support. Thank you for your purchase of this MPS product. All products sold by MPS are for use at closed course competition events and not for use on public streets or highways.
