380 Orange Lane – Casselberry, Florida 32707

Innovative Racing Electronics

The 54-EFI-TC2 is designed for the pro level racer who wants the most advanced Self-Learning technology, combined with enhanced adjustability and multi stage corrections to cut power more precisely than a single stage unit.

These units are perfect for racers looking for the unmatched precision of our Self-Learning units to get more aggressive with their tune ups, utilizing all of the adjustability that the 54-EFI-TC2 has to offer.

The 54-EFI-TC2 is designed specifically to work with the Holley HP and Dominator EFI Systems.

The 54-EFI-TC2 Can also operate as a Non-Self Learning Unit, which may be desired for street use.

The 54-EFI-TC2 is simply the best, most advanced EFI traction control on the market today !

Self-Learning units like the 54-EFI-TC2 automatically adjust to the continually changing conditions as you go down the track.

*May not be legal in some series

The Traction Control for Holley EFI, P/N 54-EFI-TC2 is racer priced at just \$999.00 and is in stock for immediate shipment.
